OUTLAST® HydroActive – The full experience

BALTES® shoes with the innovative OUTLAST® HydroActive lining set absolutely new standards regarding quality and wear comfort. They enable a real, technologically mature temperature regulation and moisture reduction. In its interaction with your body, OUTLAST® HydroActive provides for a balanced climate and drier feet.

Your OUTLAST® HydroActive experience is as individual as you are.

OUTLAST® HydroActive – Advantages at a glance

- Dynamic temperature balance
- OUTLAST® HydroActive reduces overheating
- OUTLAST® HydroActive reduces cooling down
- OUTLAST® HydroActive reduces the production of sweat
- OUTLAST® HydroActive draws away moisture from the foot in a fast way
- Even heat distribution
- Dry feet
- Phase transition can be repeated endlessly
- Better comfort over a longer period of time

Not too hot, not too cold, just right™.
